BOTH SIDES HAVE MUCH CONFIDENCE

SHERMAN STILL BELIEVES HE
WILL BE TEMPORARY
CHAIRMAN.

ROOSEVELT AT SARATOGA

Insurgents, However, Claim Hundred
Majority—No Compromise Is
The Cry.

[BY ASSOCIATED PRESS.]
Saratoga, N. Y., Sept. 26.—Both the
progressives and "old guard" factions
of the republican party are today
waiting the arrival of candidates for
temporary chairman of the state conven-
tion tomorrow. Each side claims a
majority of the delegates and each is
preparing its convention program.

Short Platform.
The main plank of the tentative
platform of the progressives, it is
said, declares for direct nominations
for congress and legislature. It is
said the platform will be "short, crisp
and distinctly Rooseveltian."

May Compromise.
The progressives claim that when
Col. Roosevelt arrives the leaders of
the "old guard" will flock to him and
ask for money. It will be asked that
Sherman be allowed the temporary
chairmanship of the convention.
Roosevelt will not agree.

To "Stand Pat."
The conservatives claim that Sher-
man will "stand pat" and the result
will be the test vote. When the con-
vention meets at two o'clock tomor-
row, bitterness is predicted between
the two factions.

Sherman on Hand.
Vice President Sherman arrived and
immediately went into a conference
with the "old guard" leaders. He re-
fused to be interviewed but said he is
confident he will preside over the con-
vention.

Off for Fray.
Oyster Bay, N. Y., Sept. 26.—Col.
Roosevelt left this morning for Saratoga.
He is confident he will be elected
temporary chairman of the conven-
tion by a majority of at least 100.

SMALL BOY INJURED: WILL PROBABLY DIE

of Hack and His Leg Was Torn
Out Near His Home.

[BY ASSOCIATED PRESS.]
Appleton, Wis., Sept. 26.—Walter
handing on the rear of a hack today
Oreille Rammer, a five-year-old boy,
caught his right leg in the spokes of
one of the wheels and his leg was
caught in the springs completely sever-
ing it from the body near the hip.
The bone was badly shattered. The
child was removed to the hospital. The
cord of the leg was wound around the
hub of the wheel several times.

MURDER MYSTERIES TRY AUTHORITIES

Seven Murders in Milwaukee County
Within Past Month—Three
Unsolved.

[BY UNITED PRESS.]
Milwaukee, Sept. 26.—Seven mur-
ders have been committed in Milwau-
kee county within the last seven
weeks. The perpetrators of three of
three of the murders are not known
to the police or sheriff's force in
whose jurisdiction they occurred and
all three appear likely to remain in
mystery.

Two La Follettes Will Be In Congress Next Session

Madison, Wis., Sept. 26.—When the
sixty-second congress meets a year
hence at Washington, the name "La
Follette" in all probability will be
heard in the roll-call of both houses.
William L. La Follette has been nomi-
nated for congress in the third dis-
trict of the state of Washington, by
the republicans to succeed Miles Pol-
dexter, who received the nomination
for United States senator. Mr. La Fol-
lette's nomination is practically equi-
valent to election. The district is the
territory lying east of the Cascade
mountains.

The prospective new congressman
is a first cousin of Senator R. M. La
Follette of Wisconsin, and his parents
were among the pioneer settlers in
Primrose, Dane county, where several
of their children were born, among
them Charles La Follette, traveling
passenger agent for the Big Four rail-
road. They came in the early '50s,
but after some years in Primrose the
family returned to Thornton, Ind.,
where William was born.

GIVE ATTENTION TO WONDERS OF LAND IRRIGATION

Opening of National Congress at
Pueblo This Morning Was Sig-
nified by Monster Indus-
trial Parade.

[SPECIAL TO THE GAZETTE.]

Pueblo, Colo., Sept. 26.—For the
second time in the history of the or-
ganization, and for the first time since
it became the leading exponent in the
country of national development, the
state of Colorado has the honor of
entertaining the National Irrigation
Congress. The eighteenth annual ses-
sion of the congress began this morn-
ing and will continue until Friday.
During that time much important ac-
tion is expected to be taken looking
toward the reclamation of the vast
unsettled territory of the West that
but awaits the touch of water to yield
abundant crops of greatest variety.

Not since the beginning of the move-
ment looking toward government aid
in a vast scheme of irrigating the arid
regions has so much interest been
taken in the meetings of the irri-
gation congress and during the four
days' session irrigation and its kind-
red subjects, forestry and colonization,
will not only be discussed but
practical illustrations of what irri-
gation is doing for the West will be
given.

Private enterprise in irrigation work
will come in for special attention.
Tomorrow morning has been set aside
for the discussion of this subject.
Wednesday will be devoted largely to
the consideration of drainage, agri-
cultural and industrial conditions.

Questions most intimately connected
with water and its uses will be taken
up Thursday morning. Legislation
will be discussed Thursday evening.
Friday, the concluding day, will be
devoted to the election of officers and
the transaction of other business, in-
cluding the selection of a meeting
place for next year. For this honor
several cities are entered in a spirited
contest, including Milwaukee, Kansas
City, Fort Worth, San Francisco, Chi-
cago, Charleston, Rochester and St.
Louis.

The initial feature of the program
was a monster industrial parade this
morning participated in by all the
counties and districts of Colorado and
several of the neighboring states. The
formal opening of the congress took
place this afternoon. R. M. Insinger,
of Spokane, chairman of the executive
committee, called the gathering to or-
der and introduced P. J. Duran, chair-
man of the Colorado board of control.
Mr. Duran delivered the introductory
address, dwelling at considerable
length upon the importance of the
gathering and of the movement which
it represents. Governor Shafroth de-
livered an address of welcome in be-
half of the state of Colorado and Mayor
Fugard extended a similar greeting
for the city of Pueblo. The response
for the visitors was incorporated in
the annual address of the president,
R. A. Fowler of Phoenix, Arizona. Re-
ports of the executive committee and
of the several officers occupied the
remainder of the initial session.

Delegates to the congress continue
to pour into the city every train ar-
riving this morning bringing in hun-
dreds interested in the work. In-
cluded among the visitors are the gov-
ernors of several states, a number of
United States senators and repre-
sentatives in congress, railroad pres-
idents, scientists, agricultural experts,
and others. One of the most notice-
able features of the present congress
is its highly representative character.
Heretofore the attendance has been
confined largely to representatives of
the western states. The present gath-
ering, however, includes representa-
tives not only of all sections of the
United States, but of many parts of
Canada and Mexico. A number of ex-
pert agriculturists and irrigationists
from Europe are also here in response
to a special invitation to the congress.

HASKELL ANXIOUS TO DELAY HEARING

Of the Muskogee Town Lot Cases,
Called for Trial Before Federal
Court in Oklahoma Today.

[SPECIAL TO THE GAZETTE.]

McAlester, Okla., Sept. 26.—The so-
called Muskogee town lot cases, in
which Governor Charles M. Haskell of
Oklahoma is included among the de-
fendants, were called for trial in the
federal court here today. Judge Mur-
shall of Tulsa presiding. The charge
against the defendants is conspiracy
to defraud the government in connec-
tion with the scheduling of town lots
in Muskogee. With the exception of
Governor Haskell all the defendants
are said to be ready for trial. The
government, it is understood, desires
a delay in the proceedings until after
election.

PLATFORM MAKERS HARD AT LABORS

REPUBLICAN NOMINEES MEETING
IN MADISON TOMORROW.

[SPECIAL TO THE GAZETTE.]

WILL BE A RADICAL ONE

Is the Verdict of Those on the Inside
of the Circle—Taft Not to
Be Endorsed.

[BY UNITED PRESS.]

Madison, Sept. 26.—At noon today
most all the delegates to the state
platform convention tomorrow, had
arrived here. Congressman Leamon,
Senator A. W. Sanborn, C. H. Cron-
hart, among other republican stand-
ards, were in session today. The
program for the republican platform
convention was quite over and practically
framed. Among the points to be carried
out are:

The name of President Taft will not
be mentioned.

Progressive members of the Wis-
consin delegation will receive full
credit for legislation secured.

Among the planks to be adopted are:

Second choice primary election
plan; revision of corrupt practices
in primary election; the initiative and
referendum; the recall plank; and
the favoring of an industrial insurance
and a plank favoring conservation of
the natural resources of the state.

Senator Sanborn of Anshland will be
chairman of the convention.

It is indicated here today the plat-
form to be adopted by the Democrats
at the Democratic state platform con-
vention tomorrow, will even be more
progressive than that adopted in Mil-
waukee in August. A. J. Schmitz of
Milwaukee nominee for governor, will
be chairman of the convention.

No vacancies.

The attorney general today ruled
that any state central committee did
not have the authority under the law
to fill vacancies on the state ticket
not filed in the primary election. The
ruling was by answer to a formal
question put to that officer by J. B.
Smith of Madison, chairman of the
state prohibition central committee,
asking if the vacancy caused by a
candidate failing to receive the re-
quired twenty per cent vote in the
primary election, could not be filled
by the state central committee.

LA FOLLETTE READY TO START IN WORK

Report From Senior Senator That He
Will Not Undergo Operations
Is Verified.

[BY UNITED PRESS.]

Madison, Sept. 26.—Reports from
Rochester, Minn., that Sen. La Fol-
lette, added by his improved physical
condition, will refrain indefinitely
from going to Rochester for an opera-
tion, was confirmed here today. The
framing of the republican state plat-
form tomorrow and the campaign to
follow is said today to be far more
important to the senator than opera-
tions at this time.

BANCROFT TO TEST NOMINATION LAWS

[SPECIAL TO THE GAZETTE.]

Madison, Sept. 26.—That L. H. Ban-
croft of Richland Center proposed to
make a test case of the nomination
of a dead man to the state ticket was
declared by his friends to be his de-
termination. It is said this afternoon
that legal advice convinced Judge
Bancroft that he ought to have the
question adjudicated.

LORIMER INQUIRY READY TO BEGIN AN INVESTIGATION

Witnesses Will Be Called to Try and
Prove Story He Bought His Seat
in United States Senate.
[BY ASSOCIATED PRESS.]

Chicago, Sept. 26.—With six of the
seven members of the senatorial com-
mittee in attendance here today the
preparations were completed for the
introduction of testimony in the sen-
ate inquiry into the election of Sen-
ator Lorimer by the Illinois legislature.
State representative White, the
democratic legislator who confessed
that he was paid \$1,000 to vote for
Lorimer was scheduled to be the first
witness.

White said that Rep. Browne asked
him to vote for Lorimer, and that
Browne told him he would receive
\$1,000 for doing so. White's testi-
mony was the same as given in the
two trials of Browne, Senator Lor-
mer's attorneys objected to White
telling of the money promised from
other sources and the committee went
into an executive session to consider
the admissibility of evidence concern-
ing the "Jack pot" fund.

White, in his testimony, identified
the letters from Browne asking
White's assistance in making him the
minority leader of the legislature. He
then told of his relations with Browne.
After a short executive session the
committee asked White a number of
questions concerning the effect upon
his vote for Lorimer of the promised
share in the "Jack pot."

The substance of his answers was
he would probably have voted for
Lorimer on the thousand dollar offer
even if he had no share in the "Jack
Pot." The committee reserved deci-
sion on the "Jack Pot" point of de-
fense.

ALL ATTACKS MUST STOP IMMEDIATELY

Congressional Committee Decide to
Abandon Plans to Defeat Insur-
gent Congressional Can-
didates.

[BY UNITED PRESS.]

Chicago, Sept. 26.—Whether insur-
gent or standard-bearers, all republican
nominees for congress are to be sup-
ported by the national republican con-
gressional committee. The attacks on
the insurgents must stop. This word
was set forth today following a con-
ference between members of the com-
mittee here. Speaker Cannon was
present and agreed. He was told such
action must be taken to guard against
a democratic congress. Congressman
Towney, defeated for re-election in
Minnesota, started the ball rolling by
stating he will support Anderson, the
insurgent nominee.

FREEDOM FOR OLD IRELAND THE KEYNOTE

OF FIFTH BIENNIAL CONVENTION
OF THE UNITED LEAGUE
OF AMERICA.

[BY ASSOCIATED PRESS.]

ABOUT TO MEET IN BUFFALO

Will Parliament Settle the Question
Once and for All in November?
Maybe It Will—If It Does the
Great League May Meet
No More.

[SPECIAL TO THE GAZETTE.]

Buffalo, N. Y., Sept. 26.—The free-
dom of Ireland and the general uplift-
ing of the Irish race is the keynote of
thought dominating a gathering of
distinguished Irish blood now in this
city. From many of the chief cities
of the United States and Canada dele-
gates have arrived in large number to
attend the fifth biennial convention of
the United Irish League of America,
which will open its regular sessions
in Convention hall tomorrow.

The convention promises to be the
greatest gathering ever held in Amer-
ica in connection with the Irish cause.
Those who have followed closely the
recent progress of events in the Eng-
lish parliament express the belief that
the present convention will be the
last national assembly of the Irish
race abroad at which financial aid will
be asked to enable the people in Ire-
land to win their fight for national
legislative independence or home rule.
This belief is said to be prevalent not
only in Ireland, but among the leading
men of the Irish race in Australia,
Canada and the United States.

It is openly asserted in high politi-
cal circles in London that the settle-
ment of the Irish question is the great
task set before the conference of the
party leaders which is soon to resume
its sessions after a recess since early
summer. As a result of this confer-
ence it is expected that when parlia-
ment re-assembles in November,
Premier Asquith will have something
to report which will be of world-wide
interest.

The indications are that over 1,000
delegates will attend the present con-
vention in Buffalo. After the pass-
ing of the registers at the League and
other hotels are filled today with the
names of well-known Irish residents
of Boston, New York, Philadelphia,
Chicago, New Orleans, San Francisco,
Toronto, Montreal and other cities.
Foremost among the arrivals are John
J. Redmond, leader of the Irish parli-
amentary party, and his three col-
leagues, T. P. O'Connor, M. P., Joseph
Devlin, M. P., and Daniel Boyle, M. P.

Tomorrow morning the convention
of the league will formally open with
prayer by Rt. Rev. Charles H. Colton,
Roman Catholic bishop of Buffalo, who
will also speak at a later period in the
proceedings, as will Rt. Rev. J. P. Fal-
lon, bishop of London, Ont. National
President Michael J. Ryan of Phila-
delphia will preside, and addresses of
welcome will be delivered by Mayor
Fahrmann and others.

The convention will be followed by
a series of very important meetings
in all the leading cities of the United
States and Canada. The purpose of
the meetings will be to stimulate pub-
lic interest in the Irish cause and
they will be addressed by the four
representatives of the Irish parliam-
entary party now here, John Red-
mond, M. P., will be heard in New
York, Boston, Pittsburgh, Cincinnati,
Chicago, St. Louis, Indianapolis, To-
ledo, Cleveland, Detroit, Syracuse, Al-
bany, Hartford, Worcester, Spring-
field, Lowell, Fall River, Providence,
Brooklyn, Trenton and Baltimore.

T. P. O'Connor, M. P., will be
known throughout the world by the
sobriquet of "Tay Pay," will make an
extensive tour of Canada. Among the
cities in which he will speak are Tor-
onto, Ottawa, Montreal, Quebec, Win-
nipeg, Calgary and Vancouver.

After speaking in several large cit-
ies in company with his three col-
leagues, Joseph Devlin, M. P., will
start from Louisville for a tour of the
South. His literary will embrace

ROAD PREPARES FOR FALL FREIGHT RUSH

First Signs of Annual Increase in Traffic Were Stock Trains Which Passed Through Yesterday.

After the usual slack summer and early fall season in freight traffic, the annual fall rush is beginning to make its appearance. Six stock trains, the forerunners of the rush, passed through this city yesterday and more are expected. From now on until the western crops are moved, traffic will increase daily.

That the company does not intend to be caught short of motive power this year, as was the case last winter, is shown by the number of engines being overhauled and placed in condition for service. More than thirty are on the hospital track at the Port Jett Street yards at the present time. Nearly every shop on the central divisions with facilities for repairing engines, has as many as can be handled in addition to the routine work.

At the local shops, engine 694, which has been overhauled, was sent out last night double-headed on 680 and Foreman L. L. Hoffman has placed a force of mechanics at work on engine 703 which has just been received.

ENGINEER WILL ACT AS TRAINMASTER AT THE JEFFERSON FAIR

Engineer W. H. Brazzel, according to the usual custom of the road, has been given a ten day vacation by the company and will act as trainmaster at the Jefferson Fair this week. During his absence, M. A. Crowley is taking the Evansville and Watertown runs.

Engineer Chas. Yates is relieving G. E. Cole on 681 and 684.

Fireman Wilkins, who underwent an operation for appendicitis at the hospital recently, has recovered enough to be taken home.

Fireman Long has returned to work on the Beloit run, displacing Fireman Ashley who has been taking his place.

The Harrington turn around was held until 9:40 this morning by reason of engine failure.

Switchman Joe Dempsey is relieving Vernon Hoffmeyer at the south yards.

Engineer Crowley and Fireman Grantham took 391 north yesterday and deadheaded home last night.

E. T. Garbutt returned to work today after having off for several days as the result of a bad cut on his forehead caused by a heavy wrench slipping.

Chicago, Milwaukee & St. Paul.
Fireman J. Hattmeyer and W. J. Bush's place on 191 and 192 last night.

Engineer Mead and Fireman Martin took an extra west yesterday at 4:45 with engine 179.

Fireman Wright laid off the day switch engine yesterday.

Conductor Dunwiddie is relieving T. L. Leahy on the Mineral Point passenger for a few days.

The day switch engine jumped the track yesterday but was replaced on the rails after a short time.

BROADHEAD.
Broadhead, Sept. 26.—Misses Grace Atwood and Belle Fleck and Roger Skinner went to Madison on Saturday where they will attend the U. W. for the school year.

Reed Williams who is attending the Platteville Normal school, was home from Friday afternoon until Sunday noon.

Mr. and Mrs. Will Rice and daughter, Florence, spent Saturday in Janesville.

Forrest Heath of Janesville was home from that city from Saturday night until Sunday afternoon.

Mr. and Mrs. S. L. Crandall and daughter, Fern, were passengers to Milton Junction on Saturday where they went to visit old friends.

Miss Nellie Bartlett went to Freeport Saturday to visit friends.

Miss Jane Bauman of Starukon Bay is the guest of her aunt, Mrs. H. H. Andorly and Miss Hille.

Elmer Heath of Oregon, Illinois, came home from that place Friday, remaining until Sunday the guest of his parents, Mr. and Mrs. Fremont Heath.

Mrs. Nettie Hallen and Jessie Atkinson, who have been to Minneapolis and Lady Smith for the past ten days, returned home Saturday evening.

The Broadhead Hardware Company are moving their stock of goods into the new double store on the south side of the exchange square next to The Short Hotel just built for them by Chas. Lambie.

LA PRAIRIE.
La Prairie, Sept. 24.—Mr. and Mrs. Frank Richardson and three children of Milton visited Saturday and Sunday with Mr. and Mrs. R. Wilcox.

John Huguin and family went to Elkhorn on Thursday to attend the fair.

Mr. and Mrs. M. Horkey of Plymouth were Sunday visitors at the home of Mrs. Louis Himminger.

T. C. Davis finished shedding his tobacco Thursday.

Mr. and Mrs. A. Rinehimer and sons, Vernon and Charles of Plymouth, spent Sunday in this vicinity.

Louis Rummage returned Wednesday from a visit at Marshfield in the northern part of the state.

Mr. and Mrs. Hall visited Sunday at the home of Paul Stigemann.

PUMPKINS WEIGH HUNDRED POUNDS

According to Press Agents For South Dakota Corn Palace Carnival Which Opened at Mitchell Today.

(SPECIAL TO THE GAZETTE.)
Mitchell, S. D., Sept. 26.—Fine specimens of corn from every county of South Dakota, pumpkins weighing in the neighborhood of 100 pounds and numerous other farm products are exhibited at the annual corn palace carnival which opened here today. The display is considered one of the most remarkable of its kind ever shown in the Northwest.

Montana State Fair.
Helena, Mont., Sept. 26.—This city is thronged with visitors to the Montana State Fair, which opened today and will continue through the week. Conventions of farmers, wool growers and others interested in agricultural pursuits are expected to attend largely to the attendance. The fair is the largest ever held in Montana.

EXPECT TOTAL WILL BE FOUR THOUSAND

Registration at University Will Be Larger Than Ever According to Reports.

(SPECIAL TO THE GAZETTE.)
Madison, Wis., Sept. 26.—Registration at the University of Wisconsin began today, and will last three days. The enrollment at the end of the year will exceed the 4,000 mark, it is predicted. It was only a few short of this number last year. About 1,500 are women.

A general raise in the cost of living faces the students this fall. Student rooms and board are higher than ever before. The increase in board being 25 cents per week and that of rooms in like proportion. Men roomers are taking at over 600 private houses and women at about 150. The dormitory system provides to a limited extent for the women and this year will see the full use of the new women's building, Lathrop hall, for the first time.

At Association hall—the Y. M. C. A. building—75 men have engaged rooms. Arthur Jorgensen will continue as general secretary.

The fraternity rushing season is on in full blast and every available livery rig and automobile has been contracted for long in advance. Several societies girls in Milwaukee drove their fathers' cars out to Madison to use them during rushing week.

Students are arriving very day from all parts of the country, from Spain, China, Japan and European countries as well as from the United States.

President Charles R. Van Hise has just returned from a summer's trip in Canada.

SCIENCE AND INVENTION

STEAM TURBINES ARE SIMPLE

Well-Known Objections to Their Employment for Direct Driving of Low Propellers.

Steam turbines are simple and can make effective use of heat energy in steam down to very low pressure. Moreover, they have a very fair efficiency over the whole range of pressure—say from 200 pounds per square inch, absolute, to one pound per square inch, absolute, says Casier's Magazine.

There are, however, well-known objections to the employment of steam turbines acting alone for the direct driving of the propellers of low-speed vessels, especially vessels of small or moderate size where the power required is not great. For cargo boats, where the power of the engines is not more than 2,000 indicated horsepower and the speed less than 11 knots, the direct-drive turbine is particularly unsuitable.

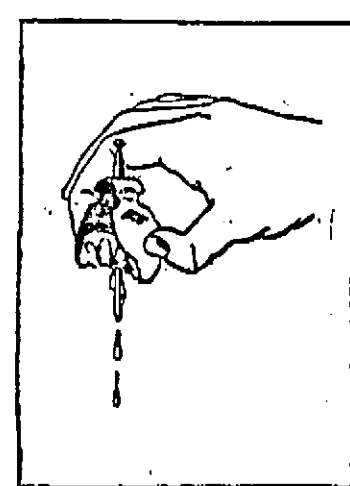

The unsuitability of the turbine lies in the fact that its desirable speed of rotation is far removed from the desirable speed of rotation of the propeller. To overcome this difficulty three schemes have been proposed and to a certain extent tried, whereby the propeller can rotate at a lower speed than the turbine. These schemes respectively involve:

1. Mechanical gearing.
 2. Electric transmission of power.
 3. Hydraulic transmission of power.
- The mechanical gearing scheme, which at present looks the most promising of the three for cargo boat use, will be first considered.

CLIP FOR THE LEMON SLICE

Neat and Effective Table Fixture of New Design—Prevents Soiling Finger Tips.

Lemon has almost entirely taken the place of vinegar as a condiment, and the little slices appear on the table almost universally for use on the oysters, fish and salad. For convenience in handling the slices and obtaining the juice without the necessity of soiling the fingers the clip shown

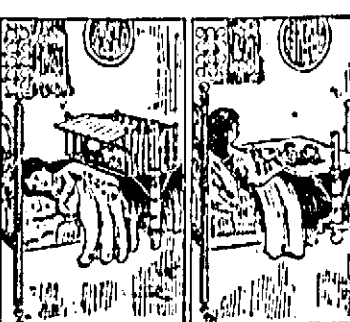

Clip for the Lemon Slice.

herewith has been devised as one of the adjuncts of a carefully laid table. The lemon slice is secured between its spreading ends and is retained there by a point on each side. A slight pressure acts on the slice of lemon and releases the juice.

CRIB AND TABLE COMBINED

Useful and Simple Device for Sick Child—Attachment is Adjustable—No Tool Needed.

The table and crib attachment shown in these illustrations was recently patented by a Lakewood, Ill., inventor, who believes his device will fill a much required need, says Popular Mechanics. The drawings showing both the crib and table explain themselves. The attachment is adjustable and can be raised to any height. No tool of any kind is needed to fasten it into position and it can be slid back and forth as desired.

Curious Seismic Phenomenon.

According to a Berlin report, a curious seismic phenomenon was recently observed near Cantilana at a place called Moss Redonda. From 10 o'clock in the morning until noon stones lying on the ground at certain spots within a circumference of over 500 yards were torn from the ground and hurled into the air, and at the same time subterranean noises were heard. Traces of an extinct volcano are visible at the spot, and it is believed that a new crater is being formed.

Very Simple Method is Shown in Illustration—Place of String and Two Pegs Needed.

To draw an ellipse or oval with a string and two pegs is very easy, and the rule for finding the length of the strings and the distance the pegs should be apart is also simple. Draw two straight lines, a b and c d, equal to the two axes and bisecting each other at right angles. Set off from c half the length of the great axis at e and f, which are the two foci of the ellipse. Take an endless string as

long as the three sides of the triangle, e o f, fix two pins or nails in the foci, one at e and one at f, lay the string around e and f, stretch it with a pencil, which then will describe the desired ellipse.

TELESCOPE IS USED IN LUNG

New Invention With Searchlight Employed to Locate Pin in Bronchial Tubes of Patient.

By the use of a newly invented miniature searchlight-telescope passed down the windpipe and into the bronchial tubes of a patient who had swallowed a shawl-pin, one of the surgeons of King's hospital of London, Eng., was recently able to see the pin, to remove it with forceps and to save the life of the patient, who was apparently beyond human aid.

The instrument, called a bronchoscope, resembles a small bent telescope fitted with lenses at different angles, and has a tiny electric light which can be passed deep into the lung. The day after the pin was swallowed an X-ray examination showed its position beneath the sixth rib, about an inch to the right of the breastbone. The patient was chloroformed and then a 20 per cent solution of cocaine was sprayed over the larynx and windpipe. The telescope tube was then passed through the mouth and larynx down the windpipe. Peering down, fixed head downward, in one of the branches of the windpipe at a distance of 13 inches from the mouth.

A pair of very fine forceps on the end of a long, flexible wire passed down the hollow telescope tube was then made to grasp the pin, and the pin, forceps and telescope were then withdrawn together. Within a few hours the patient was able to return to her home none the worse for an accident which before the invention of the lung telescope would almost inevitably have proved fatal.

One Too Many for Her.

English Manners Criticized.

A man shoves past a woman on a staircase, or he leaves her standing while he sits. He comes into a crowded public room with his hat on and talks loudly, as if all the place belonged to him. His womanhood is the same. At present the workman has the best manners, the middle class the worst.—London Graphic.

Heart and Brain.

Don't let us be afraid of enthusiasm. There is often a lack of heart than brain. The world is not starving for need of education half as much as for warm, earnest interest of soul to soul. We agree with the Indian who, when talked to about having too much zeal, said: "I think it is better for the pot to boil over than not to boil at all."

Necessary Mental Work.

Physical energy is common enough. It is easy to work hard with your body. It is far harder to work hard with your mind, but only that will bring the mental growth that makes the difference between success and failure.

HE GOT CASH FOR A VOTE

STATE'S ATTORNEY BURKE GETS NEW EVIDENCE IN LORIMER ELECTION.

SENATORS MAY GET STORY

Charles Luke, Now Dead, Is Alleged to Have Confessed He Got \$10,000—White First Witness Before Senatorial Committee.

Springfield, Ill., Sept. 26.—According to Special Assistant State's Attorney Brezner, his superior, State's Attorney Burke, is in possession of new evidence that another member of the last session of the Illinois legislature received \$10,000 to vote for William Lorimer for United States senator.

The man who made this admission of receiving cash for his vote was Charles S. Luke, of Nashville, who represented the Forty-fourth district in the house, and who has since died. Mr. Burke obtained the knowledge of Luke's admission some time ago, but it could not be used as evidence in any pending criminal case.

It is pertinent, however, to the broader matter of Lorimer's election now under investigation by the senatorial committee in Chicago, and may be used in that inquiry.

Luke Confessed a Year Ago.

The admission was made by Luke, according to one of Mr. Burke's staff, familiar with the matter, to Hugh V. Murray of Carlyle, now state's attorney of Clinton county.

The date of the conversation in which Luke made the confession was August 18, 1909, months prior to the publication of the White confession and the corroborative confessions of Beckmeyer, Lusk and Holstlaw. Luke is said to have told Murray:

"I got \$10,000 for my vote for Lorimer, and Beckmeyer was a fool if he didn't get the same."

Luke was one of those present in the Southern hotel bathroom in St. Louis, and his widow gave testimony before the Cook county grand jury that seemed to indicate that he had not been overlooked in the "jack-pot" distribution.

White to Be First Witness.

Chicago, Sept. 26.—Representative Charles A. White of O'Fallon, who confessed that he was paid \$10,000 to vote for William Lorimer for United States senator, was the first witness to testify before the senatorial investigating committee assembled in Chicago to determine Senator Lorimer's right to his seat.

It had been known that White and the other two state legislators who admitted receiving bribes—Representatives H. J. C. Beckmeyer of Carlyle and Senator D. W. Holstlaw of Idaho—would be among the first called. That White's testimony is desired first of all was indicated when he was served with a subpoena by Charles H. Nixon, sergeant-at-arms of the committee.

It is expected that he will be on the stand all day, and, perhaps, for some time on Tuesday, but Beckmeyer and Holstlaw will be within call should White be released sooner.

The testimony of these three men will be given in more minute detail than that of any other witnesses. It is expected, unless it be that of Representative Leo O'Neill Browne, whom White accuses of bribing him, in case the minority leader is called.

Neither the list of witnesses who will testify against Senator Lorimer nor of those who will appear for him has been made public by the committee.

IRISH ENVOYS REACH NEW YORK.

Redmond and Others Say Prospects Bright for Home Rule.

New York, Sept. 26.—Four Irishmen who champion their country's cause in parliament—J. E. Redmond, T. P. O'Connor, Joseph Devlin and Mr. Doyle, arrived here on the Baltic and proclaimed "the brightest prospects for home rule." They have been sent by the Nationalist party to attend the biennial national convention of the United Irish League of America in Buffalo, and to put the present condition of the Irish movement before the public. The four M. P.'s were met by representatives of Irish societies.

COURT RULES AGAINST CARROLL.

Governor Will Go on Witness Stand in Libel Case.

Des Moines, Ia., Sept. 26.—Overruling the motion for a directed verdict by attorneys for Governor D. F. Carroll, Judge James A. Howe left it for the jury to decide as to whether the chief executive of Iowa was guilty or innocent of the crime of libeling John Cowles.

The trial of Governor Carroll therefore will proceed and the governor will be placed on the witness stand in an attempt to prove the charges for which he was indicted.

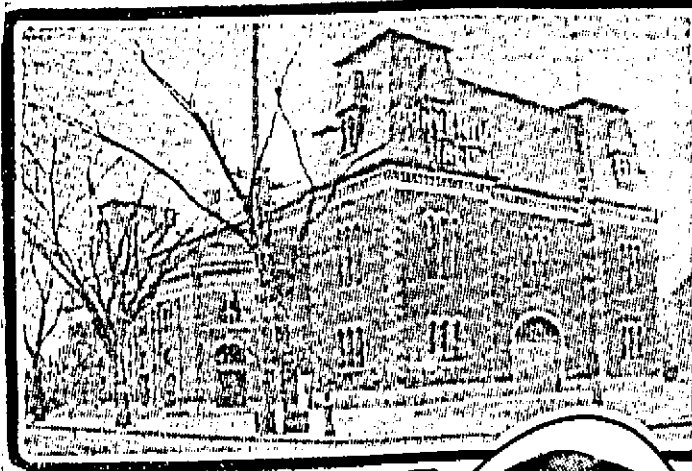

Chicken Thief Gets Ten Years.

Marion City, Ia., Sept. 26.—One of the most severe penalties for a minor crime ever meted out in Iowa was imposed on Leroy Billings, twenty-eight years old, when Judge Fellows sentenced him to ten years in the Iowa penitentiary upon his conviction of the charge of stealing chickens.

Incubator Baby Man Fined.

NEWPORT WIDOWS REPRESENT \$300,000,000.

At left, Mrs. O. H. P. Belmont, leader in Newport society. At right, Mrs. Ava Willing Astor, who is spending the summer in the Newport colony.

Newport, R. I.—Much gossip has been about during the summer season to the effect that a number of foreign noblemen were in America to find

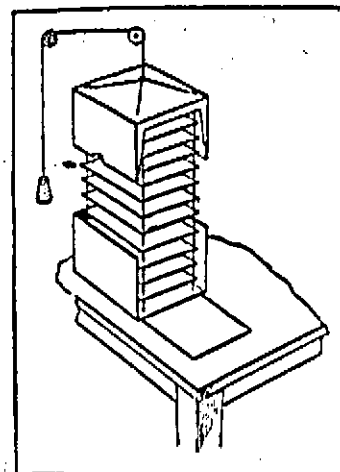

for themselves rich widows in the Newport colony. In view of this, the declaration of "Americans for us if we marry at all," given out as the ultimatum of the millionaire widows, is significant.

It is estimated that the wealth represented by Newport's colony of widows would reach \$300,000,000. Among those most widely known are: Mrs. Ogden Gould, Mrs. Robert Gould, Mrs. Oliver H. P. Belmont, Mrs. Alexander S. Clarke, Mrs. John Nicholas, Mrs. Harold Brown, Mrs. Benjamin F. Clyde, Mrs. William T. Bull, Mrs. Thomas Emery of Cincinnati, Mrs. Richard Gambrell, Mrs. Herman Goldschmidt, Mrs. French Vanderbilt and Mrs. John Jacob Astor. An addition to the number soon will be Mrs. W. D. Leeds. She has considerable money also. All these are eligible to marry, and some want to.

NOVEL CABINET FOR FILING

Ingenious Device Arranged so That Weight Opens Up Series of Shelves When Desired.

A novel and ingenious filing cabinet has been designed by a Michigan man. When closed the device is about the size of an ordinary cigar box, but when open it presents a long row of shelves in which lie the various papers required and all of which can be seen almost at a glance. The shelves consist of flat surfaces strung

Everything Seen at a Glance.

on cords at each corner. They are arranged to telescope within a box which is made in two parts, the upper part fitting over the lower. Above this case another cord runs through pulleys in the ceiling or desk top, one end of this cord being fastened to the top of the box and the other end having a weight on it. When the box is closed and the front flap fastened up it remains in that position, but when the front flap is let down the upper part of the box is released, the weight of the cord descends, and the shelves are extended to the full length of the cords on which they are hung. This little invention has the advantage of taking up little room in an office when the box is closed and of displaying all the papers on the shelves when it is open.

METALS SUBJECT TO DISEASE

Spontaneous Change is as True of Inorganic Materials as of Organized Entities.

That metals have diseases, and that spontaneous change is as true of inorganic materials as it is of organized entities, is advanced by the London Lancet.

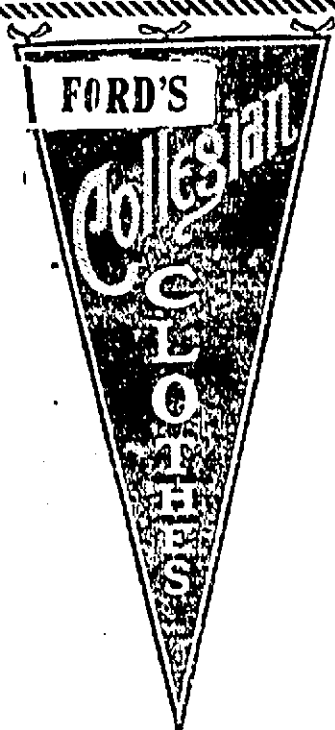

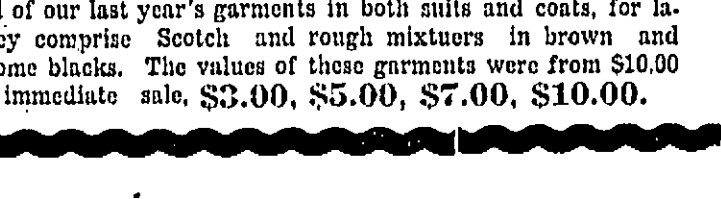

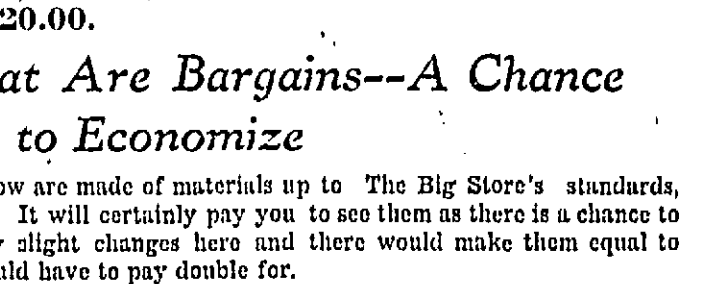

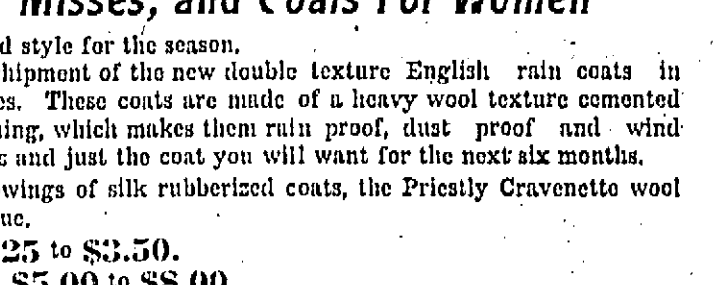

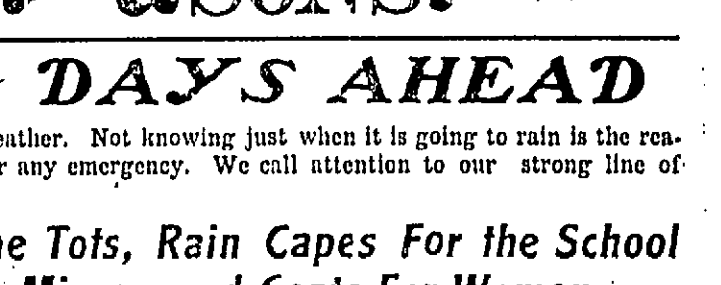

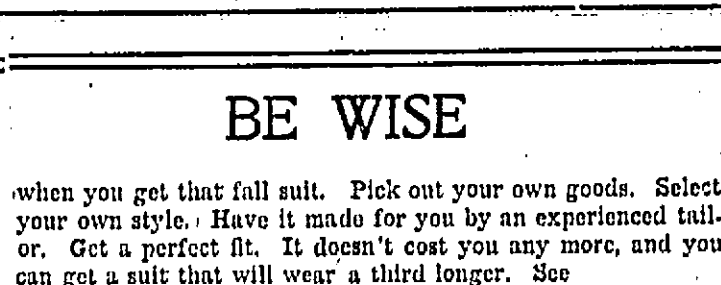

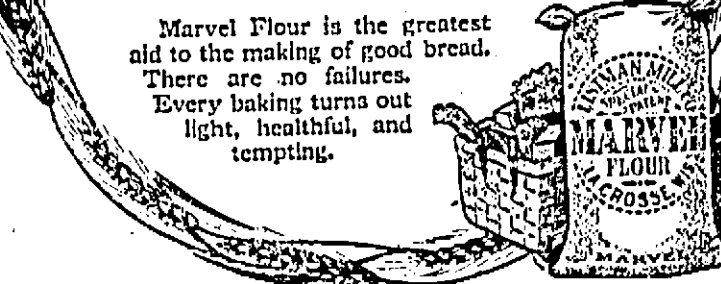

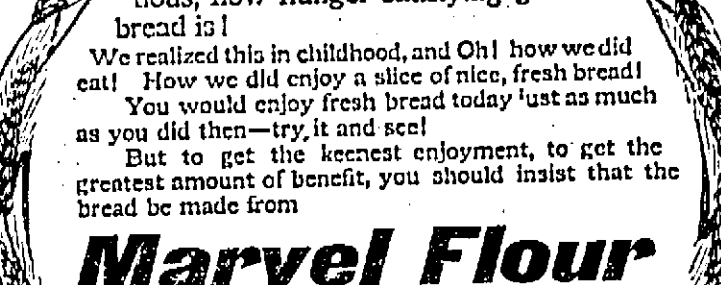

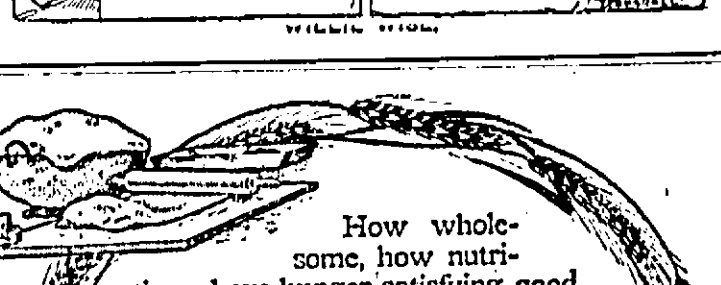

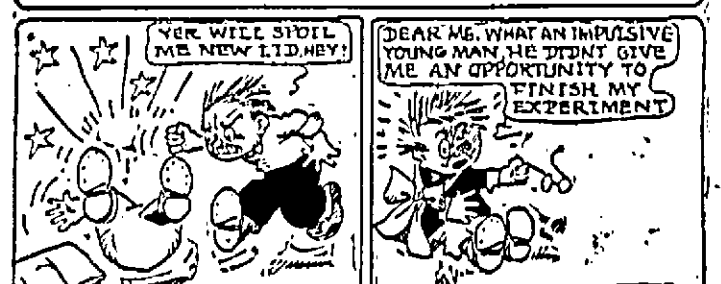

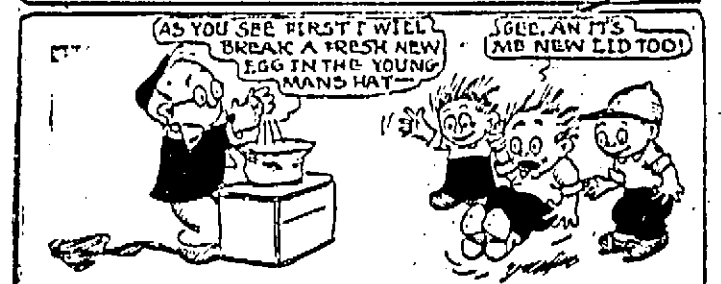

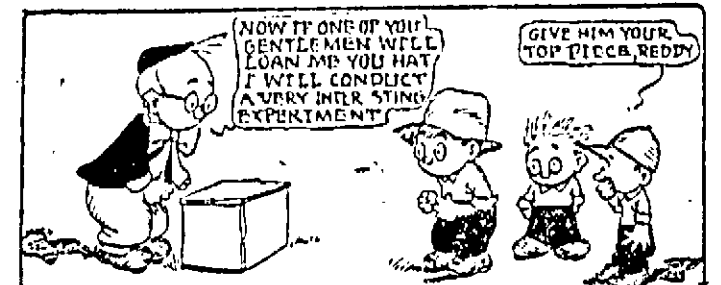

"Yellow phosphorus gradually assumes a new complexion, it left to the agencies of time, finishing a beautiful dark red," says a recent article. "It crumbles to a gray powder if exposed for a long time to the air, and this is known as 'the plague.' This plague is even infectious, for on inoculating other masses of smooth polished tin with small portions of the crystalline metal, the disease spreads, the area affected increasing in diameter daily. Thisfall succumbs to the infection in the same way and becomes brittle all the way through. Why does the railway tin snap—except that it is attacked by the same crystallizing disease? It would even appear that certain metals have their 'illness,' as though their activities were interfered with by a toxic process which may be pushed in many cases to such an extent that the metal 'dies.' Platinum, for example, in its colloidal form, in which it is very remarkably active, is positively poisoned by prussic acid or corrosive sublimate; its great energies cease to act; it is killed."

The Age of Happiness.

What is the age of happiness? A great man of science declared his belief that pessimism, like measles, is a complaint of youth, and a calm joy the characteristic of age. The Women Workers have just been told by Mrs. Creighton that middle age is happier than the springtime of life.—London Telegraph.

These coats are made of a heavy wool texture cased with a rainproof plaid back lining, which makes them rain proof, dust proof and wind proof. They are beautiful styles and just the coat you will want for the next six months.

We also have complete showings of silk rubberized coats, the Priestly Cravenette wool coats in tan, gray and navy blue.

Capes for tots range \$2.25 to \$3.50.

Capes for girls and misses, \$5.00 to \$8.00.

Rain Coats, \$5.00 to \$20.00.

Bargains That Are Bargains--A Chance to Economize

The garments we offer below are made of materials up to The Big Store's standards, the kind that give satisfaction. It will certainly pay you to see them as there is a chance to make a great saving. Possibly slight changes here and there would make them equal to the newest styles that you would have to pay double for.

We have placed on sale all of our last year's garments in both suits and coats, for ladies, children and misses. They comprise Scotch and rough mixtures in brown and grays, also plain colors and some blacks. The values of these garments were from \$10.00 to \$20.00 and up. Prices for immediate sale, \$3.00, \$5.00, \$7.00, \$10.00.

SEEK INFORMATION REGARDING HEIRS

Benjamin B. Allen Died in Nashville,
Tenn., Leaving Large Estate—
Was in Janeville Years

ago.
Madeline A. Allen, who resides at
2818 W. First St., Brighton, La., N. Y.,
is attempting to locate the heirs or
other relatives of Benjamin B. Allen,
who died July 13, 1910. She thinks that Mr.
Allen, who spent some time during
his early childhood in Wisconsin, re-
sided for a while with a relative by
the name of Bentley who was cashier
in a bank. Her impression is that
Bentley lived in Janeville. As Allen
left a large estate, it is important
that any relatives now living be not-
tified.

INTERURBAN CO. HAS FILED BOND

Of \$5,000 to Safeguard City From Any
Damage Which May Be Done by
Tearing Up the Streets.
Through its engineer, Joseph Ellis,
the Cincinnati Construction company
has filed a bond issued by the Fidelity
& Deposit company of Maryland in the
penal sum of \$5,000 as a guarantee
that all streets torn up for the pur-
pose of laying rails will be restored
to their proper condition. The com-
pany's franchise expires on October
26 and if something in the line of tear-
ing up streets and laying rails shall
not have been done at that time, the
grant which was issued on April 26,
1909 will be forfeited. The franchise
also provides that construction work
must be completed within a period of
three years after the building opera-
tions are commenced.

CONDUCTOR BRENNAN WAS BADLY BITTEN BY DOG

Belonging to Hugh Collins Saturday
Evening and Had to Give up Run
—Canine Executed Today.

While on his way to the St. Paul
depot Saturday evening, Conductor T.
P. Brennan was attacked by a savage
dog belonging to Hugh Collins, 108
South Pearl street, and his left hand
was so badly lacerated that a physi-
cian had to take several stitches and
Mr. Brennan had to give up his run
for the evening. Chief Appleby shot
the canine this morning.

JUDGE RESERVES HIS DECISION IN CENTER AVE. CASE

Temporary Injunction Not Dissolved;
Case Will Be Tried on Its Merits

In October Term of Court.
Decision in the Center Ave. case,
brought by J. J. Kelly and others
against J. J. Dunn and other city of-
ficials, in which a temporary injunc-
tion was issued, restraining the city
from continuing the work of improving
Center avenue, has been reserved by
Judge Grimm, before whom arguments
were made last week. In his state-
ment to the attorneys retained by
both parties, Judge Grimm said in
part: "The sufficiency of plaintiffs'
bond of \$500 to indemnify the defend-
ants in case he fails in the action is
not attacked, and sound policy re-
quires that the temporary injunction
be continued in force until the case
can be tried upon its merits. In order
that there may be no unnecessary de-
lay, and acting upon an understand-
ing tentatively reached at the close of
the argument upon the present motion,
I shall set this case for trial as the
first case at the October term,
commencing next Monday, October 3,
1910."

HOSPITAL FUND GETS OVER \$269

As an Outcome of the Theatrical En-
tertainment given last week—
Show Receipts \$92.

Hospital fund receipts from all
sources, as a result of the amateur
operatic performance last week, total
over \$269.25. The hospital's share of
the receipts from the performance,
itself, was \$92 and this amount has
been turned over to S. M. Smith,
treasurer of the fund. Profits from
the program all went to the fund and
amounted to over \$100. "The sale of
ice cream and flowers yielded a net
proceeds of \$77.25 and Miss Lillian
Bourgeois and the committee of
ladies who took charge of this de-
partment wish to thank the public
for the generous patronage accorded
them. "Vandy Fair" was the winner in
the voting contest to determine which
was the most popular feature. Miss
Josephine Treat was selected as the
winner. All of the singers deserved
and received the highest praise for
their efforts, and all, not excepting
Miss Geraldine Maude Hines whose
splendid work as soprano soloist was
a most important contribution to the
success of the entertainment, domi-
nated their services. The attendance
Saturday evening was not up to ex-
pectations. Two evening presenta-
tions and a matinee would have been
quite sufficient for a place of this
size.

MISSOURI AFTER BREWER AS COACH

Former Janeville Man Has Received
Tempting Offer to Act As Physi-
cal Director For 4,000 Stu-
dents.

Missouri is seeking the services of
Chesley L. Brewer, son of
Mr. and Mrs. L. C. Brewer of this city
and athletic director at the Michigan
Agricultural College, Lansing, for the
past few years. It is quite likely that
he will accept the offer after June 1
and become director of athletics and
football coach for 4,000 students at a
salary which will place him on an
equal footing with all of the great
college exponents of athletics in the
west with the single exception of
Coach Alonzo Stang of Chicago Uni-
versity who receives \$5,000. Despite
many handicaps, Mr. Brewer has built
up for the M. A. C. a football team
which has not suffered defeat on its
home grounds for seven years and in
all the other branches of athletic en-
deavor he has turned out teams that
would have reflected great credit on
much larger institutions. He began
his career in athletics as a player on
the University of Wisconsin football
team and was prominently mentioned
as a candidate for the directorship of
U. of W. athletics a few years ago.
In the new position, if he accepts it,
he will have seven capable assistants
and the advantage of the best college
gymnasium west of the Mississippi
river to work with.

CAR LINE SALE IS AGAIN POSTPONED

This Time for Four Weeks, in Order
to Permit the Receivers to Com-
plete Improvements Now
Under Way.

By consent of all parties interested,
the adjourned public sale of the Jane-
ville street railway line which was to
have taken place today, has again
been adjourned—this time for four
weeks. The brief for paying between
the tracks has just arrived, the work
on the new wiring is not yet fully com-
pleted, and the receivers are anxious
to have everything done and account-
ed for, so far as the improvements for
which they were permitted to borrow
\$10,000 are concerned before the sale
takes place.

CARRY AWAY FENCE AT ATHLETIC PARK

Gypsies and Their Depredations Com-
plained of in a Communication
from C. B. Conrad to
Council.

C. B. Conrad, in a communication
which will be read at the next council
meeting, calls attention to the large
number of gypsies who make a stop-
ping place near to Athletic park and
remove lumber just put up, for cov-
ering and heating purposes. He avers
that they completely destroyed a
fence erected by the Y. M. C. A. and
will soon have the new one which is
put up completely removed unless
something is done. So far as the
writer is aware, this is the only place
where they congregate. He asks that
steps be taken to safeguard his prop-
erty.

SYNOD MEETING OPENS TONIGHT

AT ST. PETER'S ENGLISH LUTHER-
AN CHURCH—MANY DELE-
GATES HERE.

SIXTEENTH ANNUAL SESSION

Much Business of Importance Will Be
Handled During the Daily
Sessions.

Beginning tonight with a vesper ser-
vice in St. Peter's English Evangel-
ical church, the sixteenth meeting of
the Eastern Lutheran synod of the
Northwest will be held in this city
this week, ending on Thursday
night. The vesper service will be in
charge of Rev. A. C. Peterson and
Rev. H. E. Gohmert will deliver a ses-
sion on "Contending for the Word."

Fifty delegates, pastors and laymen
will attend the conference, and have
been arriving in the city today for
the services tonight. Seventeen of
them, clergy, arrived yesterday.
The tomorrow sessions will be "Sun-
day School Day." Wednesday will be
given over to the reports of the synod's
societies and on Thursday, the
closing day, will be Conference Day.
A number of noted clergy are here
for the conference, among them Dr.
W. T. Erick, D. D. of Milwaukee, of
the Church of the Redeemer, who is
to speak tomorrow night; Rev. C. H.
Lundqvist of Oshkosh, who will also
deliver an address; Sunday schools
at tomorrow morning's meeting.

CLOSING OF STORES A BOON TO CLERKS

Petition Being Passed Around to Keep
Them Closed Every Night
—But Saturday.

That the merchants of Janeville
will close their places of business
every evening in the week except Sat-
urday, and on Wednesday evenings
for one month before Xmas and one
month before Easter, with the usual
evenings preceding the holidays,
seems to be almost definitely decided.
A paper which has been in circulation
the past week has been signed by all
the merchants in Janeville except
three. Without a doubt the plan will
be carried out, beginning Wednesday,
Sept. 28, of the present week. The
purpose of such a movement is to give
the employees the much needed rest
they deserve and to make it possible
for the public to be better served while
shopping. Many of our lending times
have urged this matter for some time
as it is done in almost every city of
any size in our state and adjacent
states.

JANEVILLE-MADE PLOWS WIN PRIZES AT LARGE CONTESTS

Within the past two weeks two
sweepstakes prizes, the highest honors
awarded, have been won by plows
manufactured by the Janeville Ma-
chine company, in the two largest
plowing matches in the United States.
The first was taken at the thirtieth
annual plowing match of the Wheat-
land association near Aurora, Ill., Sept.
24, this contest being the oldest in the
country. The other sweepstakes was
won Saturday at the Big Rock plowing
exhibition, a close second in impor-
tance to the Wheatland competition.
Over four thousand farmers and a
thousand people from nearby towns
were at Wheatland and three thou-
sand at Big Rock. The prize-winning
plow, a sulky, was fitted with a new
style of plow bottom designed by N.
J. MILLER, superintendent of the Ma-
chine company at this town.

These prizes are a remarkable vic-
tory for the Janeville company, as
entries for this contest are not con-
fined to any particular territory, but
from the entire United States. In the
Wheatland match there were thirty-
one plows of all classes trying for the
honors.

Other events at the Wheatland
match in which the Janeville plows
were entered by plowmen and cap-
tured awards, and the prizes taken
were as follows:

Post-graduate class, all plowmen
who have taken silver cups two years
in success at any plowing match in
the United States, three Janeville
sulkies entered took first, second and
third premiums.

Prize winners' class: All plowmen
in the United States who have taken
first premium in any recognized plow-
ing match—two Janeville sulkies cap-
tured first and third.

Riding plow class: Sulky or gang,
three sulkies, first, second and third,
Janeville sulky, first premium.

Boys' class, under 15 years: One
Janeville sulky, first premium.

Boys' class, under 17 years of age:
One Janeville sulky entered secured
first prize.

At the Big Rock contest, premiums
taken were:

Prize winners' class: Three en-
tered, first, second and third awards,
all offered.

Riding plow, gang or sulky: Two
entered, first and second premiums.
A plow similar to C. C. one which won
the sweepstakes prize was put on
exhibition in a window at Hestwick's
dry goods store during "Made in
Janeville" week, Sept. 29, 30 and
Oct. 1.

JANEVILLE LOST THIRD OF SERIES

Bolott Wins Yesterday's Game by
Score of 2 to 0—Liese Strikes
Out Fourteen Men.

Nearly a thousand enthusiastic
fans, three hundred from this city
and the remainder from Beloit, wit-
nessed the best game of the fall in-
tercity series yesterday at York Park.
Janeville lost, 2 to 0, but the fans
more than got their money's worth for
the game was a thriller from begin-
ning to end. Bolott got the jump in
the third inning by securing two runs
on hits by Mills and Savelland and an
error by Ward's catcher and were
never headed. Janeville had a
ghost of a show in the first and ninth
but those were too much for them.
The blonde Nemesis of the locals
fanned fourteen. Steel whiffed ten,
which is something of a record
against the Line City sluggers. The
totals:

SIX ARE DEAD IN A CRASH

TRACTION COACH COLLIDES
WITH CAR NEAR TIP-
TON, IND.

TWELVE PERSONS ARE HURT

Second Smashup on Indiana Road
Within Week—Motorman Who
Jumped and Saved Himself Says:
"I Guess We Overran Instructions."

Tipton, Ind., Sept. 26.—In a collision on the Indiana Union Traction road two miles north of this city six persons were killed and 12 others more or less seriously injured.

This was the second disaster on Indiana traction lines within a week, the first having occurred on the Wabash Valley line at Kingsland on Wednesday. The death of Clyde Brown of Warren, Ind., brought the number of persons killed in that disaster up to 41.

The two wrecks were brought about under circumstances which were almost identical. In both cases there was a mistake in the order—one of the trains overran the station at which it was to stop and met the other on a sharp curve in a head-on collision.

The dead:
Haker, Joseph, motorman, Logansport.
Bruc, Lewis, Kokomo, Ind.
Holthouser, Dr. W. C., Brooklyn.
Holthouser, W. H., Brooklyn.
Haltback, Verdel, Hymenla, Ind.
Walsh, D. F., Marshall, Mich.
Seriously injured:
Hullinger, J. E., Sharpville, Ind.
Curtis, A. E., wife, Indianapolis.
Grave, Charles, Indianapolis.
Hawkins, J. E., Indianapolis.
Hutchins, Mrs. H. A., Alexandria.
Jones, Mrs. Belle, Greentown, Ind.
Montgomery, J. W., Elwood.
Moore, Mrs. T. A., Elwood, Ind.
Zantokle, Vincent, Sharpville, Ind.

Killed on Way to Wedding.
Dr. W. C. Holthouser, who was killed in the wreck, was on his way to Kokomo, Ind., where he was to have been married. His brother, who also was killed, was to have been the best man at the wedding. The bride to have been Miss Nellie Coxon, daughter of the secretary of the Great Western Pottery company of Kokomo. Miss Coxon was prostrated when she heard of the death of her fiancé.

The collision was between a north-bound limited passenger train and a south-bound freight. The south-bound motorman had orders to wait at the first stop north of the crossing. It is said, but overran that point, thinking he could make another switch.

A clump of trees hid the approaching cars and they came together at a curve. The freight train plowed through the front of the limited, demolishing the smoker. The motorman and all the passengers in the smoking compartment of the limited were killed. The motorman and conductor on the freight car jumped and were not injured.

Says Order Was Violated.
"I guess we overran the orders," said Motorman Dan Lacy, when he had fully recovered from the shock caused by jumping from his car. Conductor Hebra was equally dazed at the occurrence and could not explain why it was they had passed the switch.

Furnhouses were opened for the reception of the injured and the bodies of the dead. Superintendent Surrat sent out extra cars, with cots, and all of the dead and injured were brought here.

CHOLERA EPIDEMIC IN NAPLES.

Fifty Die in a Day—One Hundred New Cases Are Recorded.

Naples, Sept. 26.—The epidemic of cholera here has attained the most alarming proportions and energetic measures are being taken by the government health officials to combat the disease. More than 100 new cases were reported to the authorities. Fifty deaths occurred within the last 24 hours.

The government, which up to the present has persistently declined to recognize the existence of cholera, has now admitted that the disease which caused such havoc within the last two weeks is cholera of the virulent Asiatic type.

IRA D. SANKEY'S WIDOW DIES.

Was Long Famous Evangelist's Companion on Tours.

New York, Sept. 26.—Mrs. Frances Victoria Sankey, widow of Ira D. Sankey, the noted evangelist, died after a lingering illness at her home, 148 South Oxford street.

Mrs. Sankey was born in Harrisburg, Pa., seventy-one years ago. She was married to Mr. Sankey in 1863, and for many years she was his companion on his tours of the country. When he accompanied the late Dwight L. Moody on evangelistic missions.

De Palma Smashes Auto Mark.
Philadelphia, Sept. 26.—Ralph De Palma in his 1741 racer made a new record for ten miles on a circular track here, going the distance in 8:31 1/4. This beats his own record of 8:46, made at St. Paul last year.

Rochester Wins Pennant.
New York, Sept. 26.—The Eastern league season is closed and Rochester captured the flag for the second successive year, with Newark again in second place.

PRISON EXPERTS IN INDIANA.

Lively Time Is Given Foreign Delegates at Indianapolis.

Indianapolis, Ind., Sept. 26.—The foreign members of the International Prison congress and their American escort were given a lively time today in Indianapolis, the only capital city included in their itinerary. The party arrived at 7 o'clock, and after breakfast at the Claypool was taken out to visit the various courts, public schools, police stations and county jail and the juvenile detention home of the county workhouse. At 11:30 the visitors divided up, according to preference and went to the several state institutions here, where they were entertained at luncheon.

The afternoon was given up to an automobile tour of the city, in the course of which stops were made at the Technical Institute, Butler college and various children's institutions. This evening the visitors will be given a reception at the state capital, the hosts being Governor Marshall, the city officials and the commercial organizations. At midnight the special leaves for Louisville.

SHOOTS RAPIDS TO WIN \$2.

William Hill Uses Leach Barrel; Badly Bruised.

Niagara Falls, Ont., Sept. 26.—To win a two-dollar bet William Hill shot the lower or Devil's-Hole rapids between the whirlpool and Lewiston in a steel barrel. Hill made the trip successfully, but was severely bruised. The barrel was the same in which Robert Leach Saturday successfully navigated the whirlpool rapids. William Donald, a river man, who was at the whirlpool when Hill started on his trip, telephoned down the river that the barrel and its human freight was bound down stream. It was picked up an hour and seven minutes after it started by a fisherman in a motor boat. Hill collected his wager. This is the first time that the lower rapids have been navigated in a barrel.

SHOOTS WOMAN; MEETS DEATH.

Swift Retribution Under a Train Over-takes Iowa Man.

Oskaloosa, Ia., Sept. 26.—Swift and unusual retribution overtook William Boston after he had shot and probably fatally wounded Susan Losson, twenty-nine years old, at Oskaloosa. Pursued by friends of the wounded woman, who had lifted Boston, the man fled through a woods and attempted to board a moving train. Out of breath and made unstable by fear, apparently, Boston fell under the wheels of the car and was ground to death.

Boston deliberately fired a load of shot into Miss Losson's body with an old shotgun. He instantly dropped the weapon and fled to the woods.

HOLD UP CAR IN DAYLIGHT.

Bandits Take \$180 From Passengers on St. Paul Interurban.

St. Paul, Minn., Sept. 26.—Six armed bandits secured \$180 on a crowded interurban street car, flourishing knives and revolvers in the faces of passengers, fought their way to the rear of the car and made their escape in broad daylight.

The car was a Minneapolis-bound interurban and the crowd in the aisle made no effort to stop the men. At Eleventh avenue one of the men signaled to the motorman to stop the car, and with knives still in their hands the bandits backed down the platform.

THREE ARE INJURED IN WRECK.

Sixteen Cars Are Burned, Including Ten Loaded With Whisky.

Bloomington, Ill., Sept. 26.—In a freight wreck on the Chicago & Alton at Washburn Engineer W. W. Smallwood of Bloomington and Fireman William Kenne of Varna were fatally scalded, and brakeman George Lawler of Dwight seriously scalded. The engine was derailed by a defective frog. The train took fire and 16 cars were consumed with a loss of \$50,000. Ten cars were loaded with whisky.

The Ticklemouse

—and his Sleepyland Adventures
By Roy Rutherford Bailey with Davy and Dorfy

The Ticklemouse and the Tub

IF YOU'RE awfully careful and quiet, "whispered the Ticklemouse to the twins, "we'll take you to the circus tonight. Here let Willy just tickle you into nice again—this is a strictly private affair—no human folks admitted."

"Is it very far?" asked Dorfy. The mouse laughed and pointed down the hall. "Oh, a terribly long walk—clear down to the door yonder."

"Why, that's the bathroom!" Dorfy looked up in surprise, but as soon as she and Davy were turned into ticklemice they scampered down the hall without another question.

They hardly knew their own bathroom! For little chairs and benches, cunningly made out of shingles and pieces of bark, surrounded the big white tub. Seated on these were rows and rows of smiling mice, eagerly watching the circus performers.

Two fat ones were having a lively wrestling match on the rim of the bathtub. And such a match! For whenever one of the wrestlers threw the other, the defeated one was thrown to the bottom of the tub, kerplunk!

A slender young ladymouse, all in sober grey, next did some fancy balancing, on the very edge of the tub.

Once she slipped and nearly fell—and a long fall it would have been for her, for she wasn't padded with fat like the chubby wrestlers! Her safe arrival at the tub as if their lives depended on winning. And just at the most exciting part of the race, when the watching mice were all on tiptoe, squeaking and calling on their favorites to win—the bathroom door swung slowly open. It was Mr. Dover!

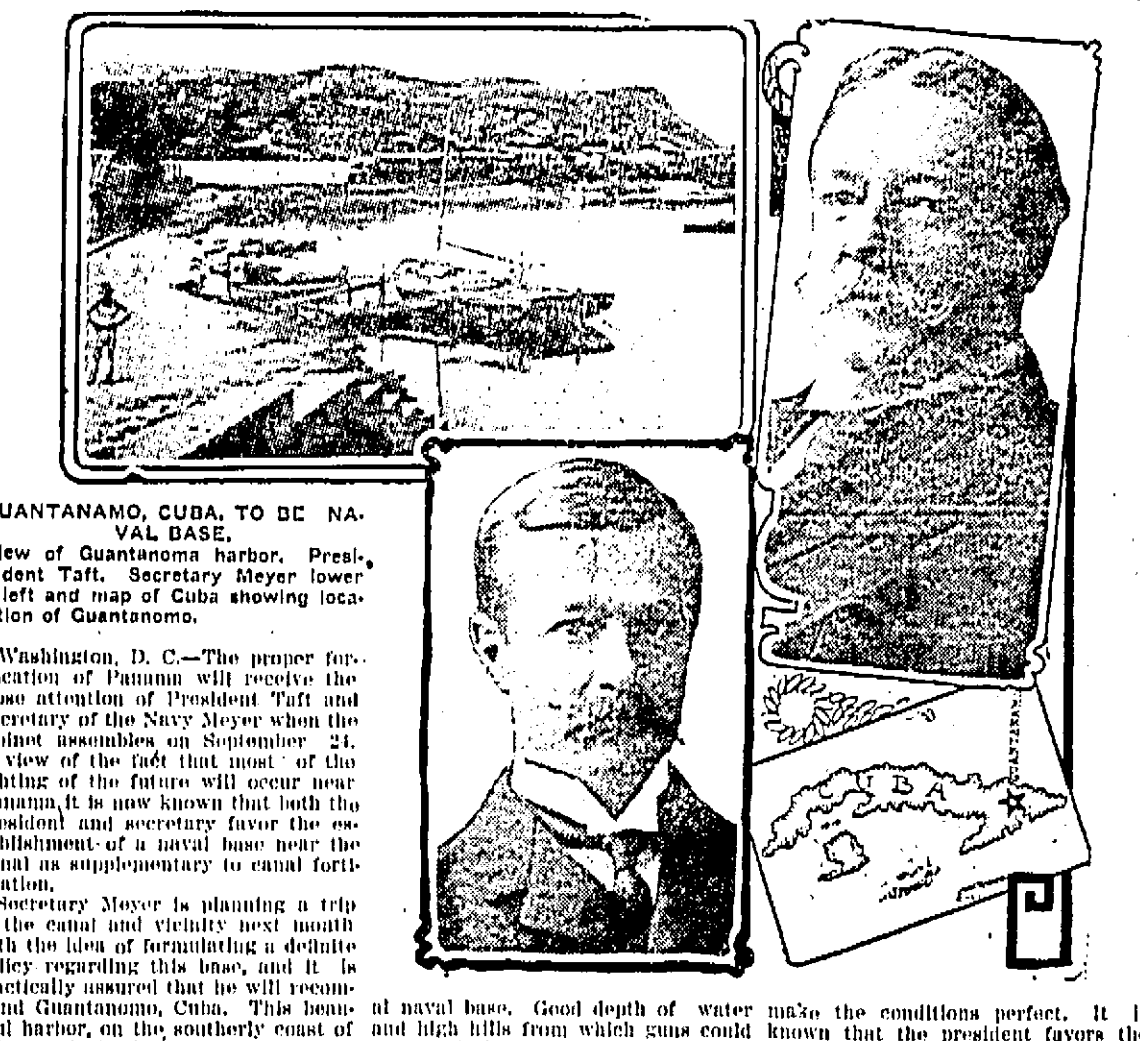

In the wild scramble that followed, the twins forgot that their father couldn't see them—because he hadn't been tickled awake by a ticklemouse, but had just come in to see if a warm bath wouldn't make him sleep better.

"Steady, steady!" whispered the Ticklemouse, as Mr. Dover stepped to the bathtub and turned on the hot water. "Mercy on us—" for a wild shriek came from the depths of the tub—"one of the chariot drivers has fallen in—the water's scalding him to death!"

Right then it was that little Willy Wishyngmouse surprised them all by his bravery and quick action. Like a flash he pointed to the chain on the rubber stopper. The struggling driver understood, jumped for the hanging chain and swarmed up as if it had been a regular fire escape. The ticklemouse-chariot driver was saved!

The other end of the tub was greeted with soft paw-clappings and squeaks of joyous applause.

GUANTANAMO, CUBA, TO BE NAVAL BASE.

View of Guantanamo harbor. President Taft. Secretary Meyer left and map of Cuba showing location of Guantanamo.

Washington, D. C.—The proper fortification of Panama will receive the close attention of President Taft and Secretary of the Navy Meyer when the cabinet assembles on September 21. In view of the fact that most of the fighting of the future will occur near Panama, it is now known that both the president and secretary favor the establishment of a naval base near the canal as supplementary to canal fortification.

Secretary Meyer is planning a trip to the canal and vicinity next month with the idea of formulating a definite policy regarding this base, and it is practically assured that he will recommend Guantanamo, Cuba. This beautiful harbor, on the southern coast of Cuba, lends itself perfectly to an ideal naval base. Good depth of water makes the conditions perfect. It is and high hills from which guns could command the sea for miles around establishment of such a base.

Book of Home Menus

Showing "What to Serve" and "How to Set and Decorate a Table."

A book to be highly prized, containing table settings beautifully illustrated in natural colors. Also twenty-four menus and more than one hundred recipes for cooking in a

"Caloric" Fireless Cookstove

You will be amazed at the seemingly impossible, almost unbelievable, things it does. It actually bakes cake, pie, bread, biscuits, etc., and actually roasts meats, chicken, game, etc., without any fire whatever except that supplied by the radiators (heated a few moments over a flame the same as an ordinary flat iron), as well as steams, stews, boils, etc.

You can cook practically everything for the family table, better and more wholesomely, more nutritiously, richer in flavor and at less cost than is possible any other way. You can do so the year round, summer and winter.

NURSE CLEARS TRUNK MYSTERY.

Young Woman Implicates Doctor in
San Francisco Tragedy.

San Francisco, Sept. 26.—After two
days and nights of silence, Marie
Messerschmidt, the nurse held in con-
nection with the death of Eva Swan, fol-
lowing the finding of the girl's mutilated body
in a trunk beneath the cement flooring of
the basement of a vacant house,
confessed to the police that she had
knowledge of the operation performed
by Dr. James Grant upon Miss Swan
and that she attended the girl after
the operation.

Dr. Grant was taken into custody
with the nurse, and Paul Parker, a
former Leland Stanford athlete, who
lived in the house where Miss Swan
resided, was taken to the police station
and placed in detention.

The nurse was induced to tell the
story by her brother-in-law, August
Borman, who visited her at the city
prison and showed her a picture of her
dead mother. The young woman faint-
ed, and upon her recovery became hysterical.

Dr. Grant, when confronted with
Miss Messerschmidt, broke away from
the jailers and ran, but was recaptured.

RALLY DAY FOR
PRESBYTERIANS

HARVEST HOME GATHERING
WAS HELD YESTERDAY

CHURCH WAS DECORATED

With Autumn Leaves and Other Sym-
bols of Fall and the Harvest—
Interesting Sermon Last
Night.

Members of the Presbyterian church
held their Harvest Home Gathering
yesterday and the Sunday School held
a rally. In honor of the home gather-
ing the church was decorated with
autumn leaves and flowers, corn
stalks, grain and other products of
the soil.

At the evening services Rev. J. W.
Laughlin preached a sermon on
"Making Religion Real," taking his
text from the fifth verse of the evan-
gelist of the Gospel of St. Luke.
"And the apostles said unto the Lord:
Increase our faith."

"There are two or three things very
apparent, when we begin the study of
this portion of the Bible," said the
pastor in his opening remarks. "One
of these is that this was a very simple
people. The apostles had been with
Christ in his travels, had heard his
preaching, had seen them travel and
had performed and came to the Lord
and said: 'Increase our faith.'"

"They were united in this aspect.
Not infrequently it happened that they
requested things separately, but this
seems to have been a request on
which they were united. The real
thing they wanted was a natural
thing to ask for."

"From our standpoint tonight, it
would have been legitimate for them
to have asked for an increase in num-
bers, for they were very few and a
large number of men to carry out the
work Christ set for them to do. But
we are persuaded that victory does
not always come through the numbers
of the largest armies. Men of faith have
won the greatest battles. Men of faith
have won the greatest victories. We ad-
mire the man who sets and plans out
a great campaign. The man without
a plan is not considered of much con-
sequence in the world. Yet you know
many things are accomplished by men
of humble attainments."

"So it was perfectly legitimate that
they should ask for faith. We learn in
the Bible it is impossible to do good
work without faith. The faith taught
in the Bible is the same kind as does
things in the world. The faith of the
New Testament is a moving some-
thing. Faith, hope and love make up
the Christian character. A man be-
comes like the thing he puts his faith
into. When Jesus said, 'Put your
faith in me,' he understood that men's
lives would become like his."

"What are some of the things in
the life of Jesus Christ we have come
to imitate? One of the first is the
prayer life. In Old Testament times
they did not pray much; they were
sacrificing. But when Jesus Christ
came, the idea was changed. He went
off by Himself to the mountain to
think. His heart went out to God, and
God spoke to Him. There is power,
peace, strength and acquaintance with
God in sitting down and letting God
talk to you. Do you get up in the
morning, hurry to your breakfast, hur-
ry to work, and then do not clouds
appear before the day's work is half
done? If you had sat down and
thought, before going to your work,
these clouds would not have come."

"Another quality which Jesus pos-
sessed, which we should learn, was
his power to control himself. It is a
great thing to have complete control
of one's self; of the tongue, of actions,
passions, and the power of the soul.
Jesus Christ was in complete control
of Himself, and He taught the world
a wonderful lesson."

"Jesus Christ was an optimist. It
was a most disconcerting and discour-
aging time when He came to begin
His work. Everywhere in the Roman
Empire, tyranny, slavery, oppression,
noise, lust, crime and greed prevailed.
He began His work and taught the
people that the time would come when
their knowledge of Him would be as
who is as the sun. He was always
looking into the future, hopeful and
looking into the future, hopeful and

never getting discouraged.

"He gave himself unreservedly to
the world. He came not to be mis-
terred unto, but to minister."

ARE REVISING THE
LAW OF THE STATE

Loose Leaf Ledger System to Replace
the Present Volumes of State
Statutes.

Somewhere about the first of next
year any citizen of Wisconsin of aver-
age intelligence will be able, if he
goes to Madison, to find out just what
is the law on any subject without be-
ing compelled to go through a maze
of law books or a labyrinth of chap-
ters, sections, subsections, etc. This
because under the new system, the
legislature has made virtually a perma-
nent one, and one of the first things
being accomplished in this new office
is the making of a "loose-leaf" ledger
which will contain all of the laws in
force, as well as another set of simi-
lar volumes containing laws which
have been repealed.

Former Judge Lyman J. Nash, the
revisor, and his assistant, Arthur E.
Belitz, are now at work in Madison
on the revision of the statutes, and
the compilation of the loose-leaf sys-
tem is practically in the hands of Mr.
Belitz.

"When this loose-leaf system is in-
stalled," said Mr. Nash, "I am inclined
to think the lawyers of the state and
the judges, as well as members of the
legislature, will wonder how they ever
got along without it."

The last revision under an act of
the legislature was made in 1898, and
the present revision dates from that
time, consequently it is necessary to
go through the acts of five legislatures
to bring the statutes down to date.
Compliance also is taken of the San-
born revision in 1905.

The law mind finds it difficult to
comprehend the devious things about
the law, and perhaps the average citi-
zen does not realize the present diffi-
culty of ascertaining in many cases
just what constitutes the law. The
state legislature will have ground out
so many new laws and have amended
so many of the old ones, over and over
again, that the present volume of the
statutes often proves a veritable Chi-
nese puzzle, even to the trained
lawyer. The completion of the loose-
leaf system, however, will make it
possible to keep an up to the minute
volume handy in the state law library
and in the supreme court.

BUMPER CROP WILL
BE HARVESTED NOW

Corn Throughout the State Is Said to
be in Fine Condition—Large
Yield.

Evidence that corn will be a bumper
crop piles up as reports of the har-
vests come in from various sections
of the state. The cutting of the crop
has been started in many fields and
hurdling will soon begin. Recent rains
have done much for this crop. The
stalks are unusually heavy and
farmers are assured of an abundant
supply of fodder, which is especially
desired on account of the short hay
crop. The rains have wrought a great
transformation in the fields. Through-
out the great dairy section in central
Wisconsin there is now an abundance
of grass, which in less than two
months has caused an increase in the
milk supply of over 50 per cent.

Boats are growing rapidly in this
section and now promise a fair crop.
The best sugar factories at Madison
and here will start about the middle
of October. Late potatoes have been
sown by the rains.

Tobacco is two weeks later than the
average year, as a result of unfavor-
able growing weather and condi-
tions in the spring. Dry weather at
harvesting time has made the crop
short of yield. It is predicted that
about 85 per cent of the entire plant-
ing will be harvested in this belt.
About 75 per cent is now in the sheds,
barns having given the harvest a set-
back. Field buying is proceeding
quietly, and about one-third of the
crop is said to be under contract.

PLAN MEETINGS FOR
THE RURAL TEACHERS

October First Date Set For Many
Meetings to be Held Simul-
taneously.

October first has been the date
designated by Superintendent Antle-
del for general meeting of the teach-
ers in the rural schools throughout
the county. This is the plan that
was decided upon at the regular meet-
ing held in June and a special pro-
gram has been prepared that all the
seasons held in Clinton, Shopshire,
Atton, Oxfordville, Evansville, Janes-
ville, Milton Junction and Lima on the
same day may discuss the same sub-
jects. The teachers are to meet in
the places most convenient for them
and the definite plans for the meetings
will be announced just previous to
the date set. The program planned
for is as follows:

10:00 a. m.—Opening exercises.

IS AN ARCTIC WINTER
TO BE LOOKED FOR?

Weather Folk Tell of Signs of Nature
That Mean Long Cold Days For
Coming Months.

Is the coming winter to be a hard
cold one with the temperature hover-
ing around about zero, fast of snow
and ice and other entertaining fea-
tures of a genuine arctic climate? This
is the question that is bothering those
who claim to be worldly wise in
weather lore. From Star Lake comes
the latest prediction, made out by
Avery P. Dunhill who says that Wis-
consin may expect a roasting old win-
ter.

Mr. Dunhill is one of the old-time
prophets who bases his predictions on
such natural signs as the thickness of
the bark on the trees and the texture
of wild animals' furs. Mr. Dunhill says
that there is every indication that the
mercury will fall to an unusually low
stage this winter, especially in north-
western Wisconsin. Even in the vicinity
of Janesville there are found to be
signs of an old season. The increased
quantity of nuts, a sure sign that na-
ture is taking care of the animals
who live on them, the anxiety of the
squirrels to store their winter supply
high above the ground in hollow trees
and specially constructed store houses
points to a deep snow. Then the
muskies are said to be busy plan-
ning additions to their summer homes
and raising the cones for above the
average which should indicate plenty
of ice of unusual thickness. Thus
far the signs of the goose have not
made a report but it is expected that
when he does it will be that the
winter is very thick and the plumage
very heavy. Perhaps all this talk of
cold winter however originates from
these hill days of the past two weeks
which really should presage a spell
of Indian summer. However, to be on
the safe side one should prepare for
a good cold winter.

ST. PAUL ROAD HELD

ANNUAL ELECTIONS

Old Officers Re-elected For the Com-
ing Year—One Director Is
Changed.

Janesville people are interested in
the annual meeting of the Chicago,
Milwaukee and St. Paul road which
was held in Milwaukee on Saturday
last. At this meeting the officers for
the coming year were named and
with the exception of the resignation
of one director Frederick Layton of
Milwaukee and the filling of his place
by the selection of Stanley Field, the
same directors and officers will handle
the company's business for the com-
ing year. The meeting was brief and
the largest amount of stock ever vot-
ed was represented. The officers
named were as follows:

Chairman of board, Roswell Miller,
New York; president, A. J. Earling,
Chicago; vice-president, E. W. Mc-
Kinnay, Chicago; vice-president, J. H.
Hilman, Chicago; assistant to the
president, B. D. Sovell, Chicago; sec-
retary, E. W. Adams, Milwaukee; as-
sistant secretary, T. C. Sherman, Mil-
waukee; assistant secretary and trans-
fer agent, J. M. McKinnay, New
York; assistant secretary and trans-
fer agent, C. B. Perry, New York;
assistant secretary and transfer agent,
R. J. Marony, New York; treasurer,
F. G. Hanne, Chicago; assistant
treasurer, John McNab, Chicago;
comptroller, W. N. D. Wimer, Chicago;
general manager, D. B. Bush,
Chicago; general superintendent, H. B.
Earling, Chicago; chief engineer,
D. J. Whittemore, Chicago; general
counsel, George R. Peck, Chicago;
general solicitor, Burton Hanson, Chi-
cago.

MRS. JOSEPH CONROY OF
LA PRAIRIE THE HOSTESS

Entertained at Shower Friday After-
noon in Honor of Miss Gertrude
Kelleys.

Mrs. Joseph Conroy of the Town of
La Prairie entertained fourteen ladies
at a China shower Friday afternoon,
given in honor of Miss Gertrude Kel-
leys, who is soon to be married to
George R. Howard. The bride to be
received a number of beautiful gifts.
The afternoon was pleasantly spent,
after which a sumptuous dinner was
served.

FRED EDDEN TO MANAGE
STORE IN FOND DU LAC

Former Janesville Young Man Has
Become a Member of the Brown
Brook Firm.

Fred Edden, brother of Dr. R. W.
Edden and a former resident of this
city who has been in the employ of
the Brown Bros. shoe store in Mil-
waukee for the past three years, has
been made a member of the firm and is to
take charge of a new store which is
to be opened in Fond du Lac about
two weeks hence. He went to Chi-
cago Friday to secure the fixtures and
left for Fond du Lac yesterday.

"Let the Heavens Fall"

In the olden, golden days of Nevada,
Charles Goodwin, now a Salt Lake
City editor, was judge of the Fourth
district. During the trial of a case
before him some of the plastering on
the ceiling of the courtroom, which
had been loosened by a leaky roof, fell
with a crash on the clerk's head.
Counsel learned in the law started for
the door. "Order, gentlemen, order!"
said Judge Goodwin. "Plat justitia runt
ceiling."

EDGERTON.

Edgerton, Sept. 21.—Miss Hazel En-
dichill is in Chicago on a visit to
friends.

Mayor Conway, P. C. Brown and E.
B. Edgerton have been drawn as ju-
rors for the October term of the dis-
trict court which convenes Oct. 3.

Mrs. W. W. Morrison left Friday
evening for West Middlesex, Penn.,
where she will visit her parents for
the next two weeks.

Editor and Mrs. F. W. Coon have
left for western Colorado, expecting
to spend two or three weeks there
with the family of their daughter,
Mrs. D. E. Heddes.

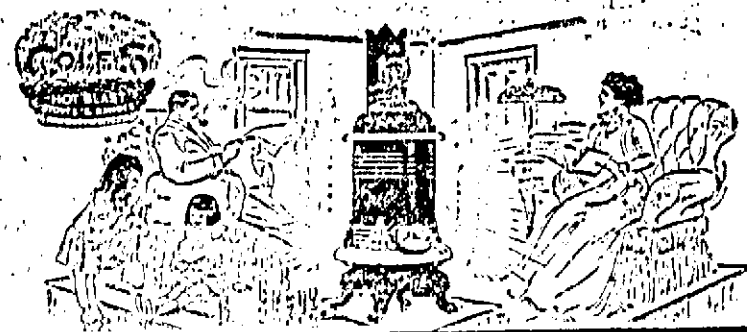

Mr. and Mrs. J. W. Dawson spent
Friday in Milwaukee.

You Can Be Made Well If You Will Come to the Chiropractors

Every disease known to mankind yields to
Chiropractic adjustments. Chiropractic is
a science of old truths, the most wonderful
aid to mankind in centuries. It is a new sci-
ence, that analyzes and locates unerringly
the physical cause of disease, and provides
a means of adjusting or removing this
cause, more promptly, radically and perma-
nently than any other method known at the
present time. These may seem bold state-
ments to make. Yet there is plenty of proof
to back them up. If you are sick and suffer, J. N. Puddicombe
ing, if you have tried the medical profession and failed to be cured, come
to us. Ninety-eight per cent of the people that come to the Chiropractors
are made well, and this notwithstanding the fact that 75 per cent of
these same people have been given up by the medical profession.
Call for an examination and advice in regard to your troubles. Even
though slight, they may be nature's danger signals of serious ailments.

Warm Floors Insure the
Children's Health

Cole's Hot Blast Draft on top of the fire burns the coal from the top—burns
the gas, which is wasted with all other stoves.
The force of this down draft forces the heat to the base which is made of
steel—cannot burn out—and heats the floor.
Thousands of testimonials have been written regarding the base heating
qualities of

Cole's Original Hot Blast Heater

The ideal heating stove is one which radiates all the heat thrown off from
the fuel—into the rooms—instead of letting it go up the chimney.
The double heater is the one which will withstand the severe use, year
after year, which a heating stove is necessarily subjected to. Sheet steel
is the quickest radiator of heat and is used as radiating surface only in Cole's Hot
Blast heater. Wherever the fuel comes in contact with the linings—only first
quality gray cast iron is used.
Cast iron withstands the wear of the heat from active combustion better
than any other material, and the large, sensitive, sheet metal body and base
radiate all the heat into the

The Silver Horde

By REX BEACH

Author of "The Spoilers" and "The Barrier"

COPYRIGHT, 1909, BY HARPER & BROTHERS

"He's not an animal at all," our hero gently corrected. "He's a biped—a regular wild bird, without either love of home or affection for his children. The salmon is of a low order of intelligence and has a Queen Anne about its roof. No person with a retreating forehead like that knows very much. The only other member of the animal kingdom that is as foolish as the salmon is Alton Clyde. The fish has got a shade the best of it over him, but as for friendship and the gentler emotions—why, the salmon hasn't got them at all. The only thing he's got is a million eggs and a sense of direction. If he had a spark of intelligence he'd lay one egg a year, like a hen, and thus live for a million years. But does he? Not on your Saron! He's a spendthrift and turns his eggs loose a handful at a time. He's worse than a shogun. And then, too, he's as clumsy as a Harvard graduate and don't associate with nobody out of his own set. No, sir! Give me a warm blooded animal that suckles its young. I'll take a farmer every time."

"These are points I had never considered," said Mr. Emerson, "but every business has its drawbacks, you'll agree. If I have failed as a host, what can I do to entertain you while you grace our midst?"

"You can do most anything," remarked his handsome companion. "You can climb a tree or do anything except fish all the time."

"But it is a dark night without, and I fear some mischief is afoot."

"True! But yonder beautiful moon—"

Roused by the familiarity of these lines, Emerson looked up from his pre-occupation and smiled at Fraser's serious pantomime.

"What about that 'beautiful moon' and the mischief that is afoot?"

"Oh, I heard all about your trouble. I just left the posthouse."

"The posthouse—Clyde's joint. Ain't he a chum?"

"In what way?"

"Well, I like silence and quietude. I'm a fool about my quiet, but Clyde—"

He paused as if in search for suitable expression. "Well, whenever I try to say anything he interrupts me."

After another pause he went on: "He's dead sore on this place, too, and whines around like a litter of pups. He says he was misled into coming up here and has a hunch he's going to lose his bank roll."

"Last night's episode frightened him, I dare say."

"Yes. Ever since he got that wallop on the burr in Seattle a gulpen pig could kick him hand to hand. You'd think that ten thousand put up was all the wealth of the Indians."

"The wealth of what?"

"Indians! That's a title of rich Mexicans. However, I suppose I'd hang to my coin the same way he does if I had a mayonnaise head like his. He's an awful shame as a business man."

"So he's a homebody, eh?"

"Sure! Offered to sell me his stock." Fraser threw back his head and gave vent to one of his rare laughs. "Ain't that a raver?"

"Here he comes now," Boyd announced, with a glance out the window, and the next instant Alton Clyde entered, a picture of dejection.

TUMOR OF YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound

Holly Springs, Mass.—"Words are inadequate for me to express what your wonderful medicine have done for me. The doctors said I had a tumor, and I had an operation, but was soon as bad again. I wrote to you for advice, and began to take Lydia E. Pinkham's Vegetable Compound as you told me to do. I am glad to say that now I look and feel so well that my friends keep asking me what has helped me so much, and I gladly recommend your Vegetable Compound."—Miss WILLIE EDWARDS, Holly Springs, Mass.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you have mysterious pains, inflammation, irregularity or disordered menstruation, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give everyone confidence. If you would like special advice about your case write a confidential letter to Mrs. Pinkham at Lynn, Mass. Her advice is free, and always helpful.

"Yes, yes," of course. But what do you know about the girl herself? Who is she? What is her history?"

"Now, Mr. Fraser, I'm an awful poor detective," confessed "Fingerless" Fraser. "I've often noticed that about myself. If I was the kind that goes snooping around into other people's business, listening to all the gossip I'm told, I'd make a good witness. But I ain't. No, sir! I'm a rotten witness."

Despite this indirect rebuke, Boyd might have continued his questioning

"We can get him tonight if you say so."

Had not George Ball's heavy step sounded outside. A moment later the big fellow entered.

"What did you find at the trap?" asked Emerson eagerly.

"Nothing," George spoke shortly. "The fish struck in this morning, but our trap is corked." He wrenched off his rubber boots and flung them savagely under a bench.

"What luck with the traps?"

"Not much. Marsh's men are trying to surround our gill netters, and we ain't got enough boats to protect ourselves." He looked up meaningfully from under his heavy brows and inquired, "How much longer are we going to stand for this?"

"What do you mean? I've got men out hunting for new hands."

"You know what I mean," the giant rumbled, his red eyes flaming. "You and I can get Willie Marsh."

Emerson shot a quick glance at Fraser, who was staring fixedly at Big George.

"He's got us right enough, and it's bound to come to a killing some day, so the sooner the better," the fisherman ran on. "We can get him tonight if you say so. Are you in on it?"

Boyd faced the window slowly, while the others followed him with anxious eyes. Inside the room a deathlike silence settled.

Moreover, Mildred Wayland was soon to arrive—the yacht was expected daily—and she would find him a failure. What was worse, she would find that Marsh had vanquished him. She would turn elsewhere—perhaps to the very man who had contrived his undoing. At thought of this a sort of desperation seemed to master him; he began to mutter aloud.

"What did you say?" queried Ball.

"I said that you are right. The time is close at hand for some sort of reckoning," answered Boyd in a harsh, strained voice.

"Good!"

Emerson was upon the point of turning when his eyes fell upon a picture that made him start, then gaze more intently. Out upon the placid waters, abreast of the plant, the launch in which Cherry had departed was approaching, and it was loaded down with men. Not only were they crowded upon the craft itself, but trailing behind it like the tail of a kite was a long line of canoes, and these also were peopled.

"Look yonder!" cried Boyd.

"What?"

"Cherry has got a crew!" His voice broke, and he bolted toward the door as Big George leaped to the window.

"Injuns!" wildly shouted the giant, and without stopping to stamp his feet into his boots he rushed out barefoot after Boyd and Fraser. Together the three men reached the dock in time to help Cherry up the ladder.

"What does this mean?" Boyd asked her breathlessly. "Will these fellows work?"

"That's what they're here for," said the girl. After her swarmed a crowd of slant-eyed, copper-lipped Aluts. Those in the kayaks astern cast off and paddled toward the beach.

"I've got fifty men, the best on the river. I tried to get more, but there aren't any more."

"Fingerless" Fraser slapped himself resoundingly upon the thigh and exploded profanely. "Boyd seized the girl's hands in his and wrung them."

"Cherry, you're a treasure!" The memory of his desperate resolution of a moment before swept over him suddenly and his voice trembled with a great thankfulness.

"Don't thank me!" Cherry exclaimed. "It was more Constantine's work than mine."

"But I don't understand. These are Marsh's men?"

Everybody Is Getting a
Rock County Map Free

Not a day passes but dozens of Rock county maps are given away. Of the 5300 subscribers to the Daily Gazette it seems as if fully half have ordered a map.

Here Is the Way to Get It.

Pay one year in advance for The Daily Gazette, the subscription to apply at the end of your present subscription. It matters not whether you are paid up in advance now, pay still further in advance. You will want The Gazette anyway, so why not have it paid up. THE MAP IS COMPLETE IN EVERY DETAIL. SIZE 18x23 INCHES.

Probably the only large map of the county that is published at the present time. Suitable for framing. Makes an excellent office map, or for the home.

It shows the cities, towns, villages, railroads, townships, school houses, churches, country roads, lakes, streams, and the shape and size of each farm.

If your subscription to The Daily Gazette is already paid in advance, pay another year in advance from the date of expiration of your present subscription. Send your money in NOW as the supply of maps may be exhausted.
